	Mercurial Skipper	<i>Proteides mercurius</i>	RS	Sep
	Silver-spotted Skipper	<i>Epargyreus clarus</i>	C	Mar-Sep
	Hammock Skipper	<i>Polygonus leo</i>	RS	Jul-Nov
	White-striped Longtail	<i>Chioides catillus</i>	R	Mar-Dec
	Zilpa Longtail	<i>Chioides zilpa</i>	RS	Aug-Oct
	Gold-spotted Aguna	<i>Aguna asander</i>	RS	Aug-Sep

Southeastern Arizona Butterfly Checklist

This checklist covers 270 species recorded in southeastern Arizona, the same region covered by Bailowitz and Brock, *Butterflies of Southeastern Arizona* (1991). The boundaries of the region are the Gila River to the north, the Baboquivari and Quinlan mountains (inclusive) to the west, the New Mexico border to the east, and the Mexican border to the south.

The English names and taxonomy follow the 2nd edition of the NABA Checklist of N.A. Butterflies (2001). The original list, concept, and layout done in 2007 was donated by Jeff Babson and we have used and modified his original edition and offer him sincere appreciation for his work.

Specific records and dates are thanks to Rich Bailowitz's unpublished annotated list. Please send new species and unseasonable records with accompanying documentation (such as photographs) to Rich Bailowitz (raberg2@q.com) for review.

For each species on the checklist, common name, scientific name, abundance, and flight period are given. The abundance column (A) follows the scientific name. The abundance categories are:

- C= Common Seen on most visits to appropriate habitat during flight period
- U=Uncommon Seen on some visits to appropriate habitat during flight period
- R=Rare Seen on few visits to appropriate habitat during flight period
- RS=Rare Stray Seen on exceptional occasions in appropriate habitat

The Southeast Arizona Butterfly Association (SEABA) is a chapter of the North American Butterfly Association (NABA). Our website is: www.SEABA.org and has information on joining SEABA, our meetings, local field trips, and butterfly counts.

✓	Common Name	Scientific Name	A	Flight Period
	Swallowtails	Papilionidae		
	White-dotted Cattleheart	<i>Parides alopius</i>	RS	Jul, Nov
	Pipevine Swallowtail	<i>Battus philenor</i>	C	All Year
