The nature of SEABA Field Trip activities requires varying levels of walking and working on varied terrains and site conditions, some of which are potentially dangerous for people. Potential injuries may be caused by contact with trees and other vegetation, contact with plants, animals and insects in the environment, uneven terrain, effluent in the river bed, rocks, boulders, hand tools, etc.

I am aware that my choice to participate in any SEABA Field Trip activities may place myself in potentially dangerous or risky situations, including but not limited to the following: forces of nature, injuries that may be associated with walking and working in uneven rugged terrain, exposure to plants, animals, insects, and effluent in the river bed, use of tools, construction activities, and traveling by automobile to and from the site(s).

I understand that despite the safety protocols undertaken by SEABA, I affirm that my participation is my own choice and I assume full responsibility for such dangers and risks, and I expressly release and will hold harmless SEABA staff, volunteers, contractors, subcontractors, Officers and Board of Directors from any and all liability, actions, causes of action, debts, claims or demands which may arise from participation in this program. I agree to indemnify and hold harmless SEABA for all special expenses incurred in the connection with any injury or danger suffered by me. This signed agreement shall constitute a release and assumption of risk by me, and shall be binding on my heirs, executors, and administrators.

I have read and agreed to all of the above conditions.
